

Hard metal wax bur set

These coarse cut burs are perfect not only for carving wax models but also good for wood working. Deep fluting and sharp teeth give a clean cut and fast result with no clogging. Heads machined from tungsten carbide alloy for longer life. Ten different shapes mounted on industry standard 3/32" (2.34 mm) shanks.

N°	Description	Kg
172.855	Wax bur set	0.0870

Wax saw blades

These round blades with a spiral tooth are ideal for cutting thick pieces of wax. The spiral design allows straight cutting in any direction. Makes cuts that are impossible with other blades with teeth.

- Made from specially hardened steel
- Continuous spiral cutting edge
- Cut many materials including wax, metal, plastics, rubber, Styrofoam, bone, etc.
- Cuts any shape with ease, intricate curves, circles, even square cuts.
- Will not clog and easily cleaned
- Can be used in a saw frame or pin vice
- Safe, will not cut human flesh
- Sold individually.

N°	Description	Length	Ø	Kg

Wax file

This new, economical wax file is perfect for working on wax, plastic and wood. Excellent value. Double-ended, one end coarse cut, the other end medium cut.

N°	Length	Kg
175.710E	205 mm	0.050

Set of wax files

Good value, coarse cut needle files for working on wax models. Sharp teeth ensure a quick cut and will not clog. Five shapes, round, half-round, flat, three-square and crossing. Overall length 17 cm, cut length 6 cm.

N°	Description	Length	Kg
175.725	Set of wax files	17 cm	0.070

Wax ring stick

This heavy-duty steel mandrel is used for enlarging wax ring models. Gives better results than lighter wooden types. Slide the wax ring or tube on to the mandrel and rotate it. The superior design using six blades slices the inner wall more evenly leaving a smooth, shiny finish. Features:

- All steel design, black finish
- Six cutting blades for professional finish
- Knurled handle for better grip
- Minimum diameter 13.5 mm. Maximum diameter 20.0 mm.

N°	Description	Length	Ø	Kg
106.145	Wax ring stick	225 mm	Min./Max. 13.5/20.0 mm	0.354

Wax carving tools

Set of wax carving tools in stainless steel. Excellent quality. Available in a set of 18 pieces or individually.
