Brütsch·Rüegger Tools

Truing callipers with parallel opening

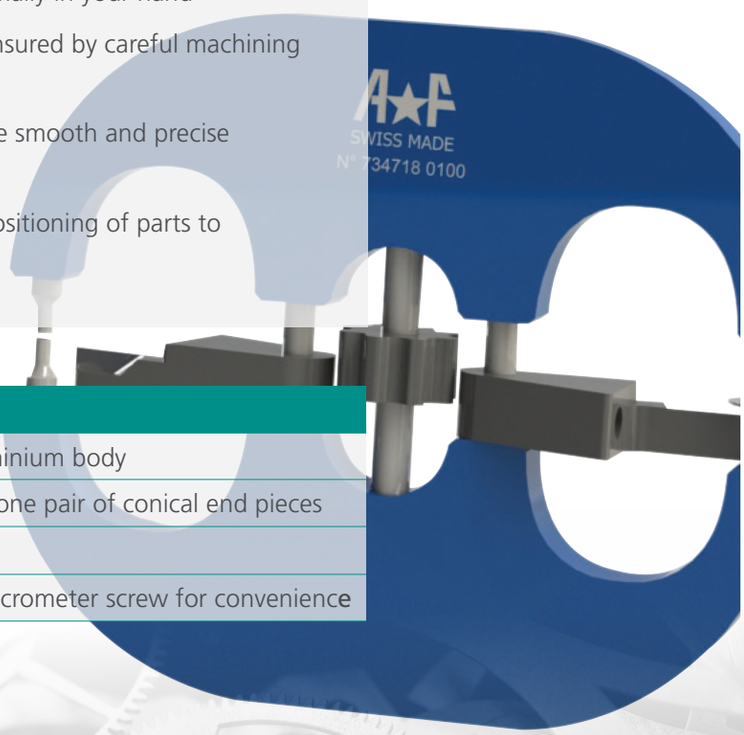

734718.0100

Tools. Next Level.

Device for adjusting and adapting components such as balances, escapements and wheels. Ensures comfortable and precise handling.

The benefits

- **Ergonomics:** Made of aluminium and designed to fit optimally in your hand
- **Precision:** Precise alignment of the pin holders, which is ensured by careful machining and reinforced guidance
- **Reliability:** Ruby pivot holders minimise friction and ensure smooth and precise rotation of test parts
- **Flexibility:** Micrometric adjustment for easy and precise positioning of parts to be examined

Technical data	
Material	Ergonomic, corrosion-resistant aluminium body
Mounting of brackets	One pair of ruby pivot holders and one pair of conical end pieces
Precision	High-precision alignment
Lever	Adaptable tip adjustment with a micrometer screw for convenience
